1. TUITION FEES

Fees for the whole duration of the program (24 months), including the intensive French language program:

- **5 000€ for EU/Erasmus zone students** (EU countries + Iceland, Liechtenstein, Norway , Switzerland and Turkey)
- **11 000€ for Non EU students**

2

A **deposit of 1000€** is to be paid before arrival to confirm admission.

Tuition fees can be paid in several installments (2 maximum, in October and January) following EURECOM's Regulations upon request.

PARTIAL TUITION FEES WAIVER FOR ACADEMIC PARTNERS

Graduates from EURECOM's partner universities may benefit from a partial tuition fee waiver.

[Click on this link to access the List of EURECOM's partner universities.](#)

Contact admission@eurecom.fr for more information.

2. FINANCIAL SUPPORTS

INTERSHIPS

The fourth semester of the program is a **6-MONTH PAID INTERNSHIP** in a company or research lab based in France or abroad. Students receive a monthly financial allowance enabling them to cover a substantial part of their costs. The total amount of the allowance is the **sole responsibility of the company offering the internship.**

According to French law, companies in France cannot pay less than 500€/month (be aware that this is the level of the legal minimum amount, EURECOM' students receive on average a higher allowance).

PART TIME JOBS

International students with a long term French visa are allowed to work part time in France, yet it is not advised to rely on such jobs to finance living expenses.

It is hard to find such jobs without a good grasp of French language and the workload of the Master's program is so demanding that working part-time can seriously entail the success of studies.

EURECOM wishes to stress that there are no job opportunities provided by its research labs during the academic year.

IMPORTANT NOTICE

- Scholarship applications will only be processed after the corresponding application for Master's programs has been completed online.
- Students need to be aware that the number of partial tuition fee waivers and scholarships is limited and that the number of applicants is very high. Students should then also be ready to consider other sources of funding for their future studies in case scholarships cannot be granted (scholarship from their home state, bank loans...)

3. The scholarship receiver must confirm the offer by accepting the offered study **within two weeks of the scholarship notification**. Without any confirmation, the scholarship will be granted to another student on the waiting list.
4. Scholarships decisions will not be reconsidered. It is not possible to request a scholarship or a partial tuition fee waiver after the publication of admission decisions and after arrival in France.

3. FINDING OTHER SOURCES OF FUNDING

French embassies, foreign governments and international institutions may also provide scholarships, for more information, please refer to the following search engine to find funding opportunities:

NOTICE ON THE MONTHLY HOUSING ALLOWANCE

Foreign students are eligible to apply to a monthly housing allowance from the French State (via the French institution CAF).

It is worth mentioning that the schedule and amount of payments from the CAF vary and students should not rely on this allowance during the first months. The first payment is usually made in November and the month of September is never taken into account in the payments.

Students should be aware that the allowance is never guaranteed as the decision to grant it depends solely on the CAF and neither French schools nor students can influence their decision.
