Research topics

- Goal-oriented Semantic Communications

Position (M/F)

- PhD, thesis offer

Reference offer

- CS/FS/6G-GOALS/PHD/112023

Research Department

- Communication Systems (CS)

Publication date

- 20/11/2023

Start date

- ASAP

Duration

- Duration of the thesis

Description

The selected candidate will conduct fundamental research in the broad area of goal-oriented semantic communications for future wireless networks. The position is funded by a prestigious European collaborative project (EU SNS). Topics include but are not limited to:

- Information and communication theories
- Game theory
- Optimal transport theory
- Machine Learning
- Networked Control Systems

Requirements

- MSc degree completed or toward its completion
- Very strong mathematical background and analytic skills
- Provable knowledge on at least one of the following areas: information and communication theories, optimization theory, game theory, optimal transport, and machine learning will be greatly appreciated
- Excellent communication skills with the ability to work in a group

Application

The application must include:

- Detailed curriculum,
- List of at least two referees,
- A one-page research statement explaining your interests, achievements and why do you think you could be a good fit for this position.

Applications should be submitted by e-mail to Prof. Fotios STAVROU (fotios.stavrou@eurecom.fr) & Prof. Marios KOUNTOURIS (marios.kountouris@eurecom.fr), and secretariat@eurecom.fr with the reference: CS/FS/6G-GOALS/PHD/112023

Deadline for applications: Until the position is filled.
About EURECOM

EURECOM is a major Engineering School and a Research Center in digital sciences founded in 1991 as a consortium in the international technology park of Sophia Antipolis. The IMT is a founding member of the GIE. Teaching and research activities are organized around 3 promising fields: digital security, communication systems and Data Science.

EURECOM has a staff of 150 (researchers and support teams) and welcomes 400 international students on the Campus Sophia Tech, the largest information science and technology campus of the region. EURECOM enjoys a privileged geographical environment on the French Riviera (Côte d'Azur), between sea and mountains, at the heart of a dynamic and multidisciplinary ecosystem that promotes high-level scientific and technological innovation.

Social advantages
- Attractive salary - Corporate saving plans
- Private retirement plan (employer participation of 100%)
- Employee profit sharing policy
- Company health insurance (mutuelle) with high levels of guarantees for the whole family (employer participation of 60%)
- Restaurant vouchers : value 10,50 euros (employer contribution of 60%)

EURECOM has a dynamic policy in terms of inclusion and quality of life at work, committed to diversity and gives the same consideration to all applications, without discrimination.

EURECOM has a “Mission Handicap” policy. All our positions are open to people with disabilities. A designated disability referent welcomes and provide support to employees and students suffering from a disability. He puts in place the necessary arrangements and makes positive commitments in favour of a personalized integration.

EURECOM, as part of its Annual Gender Equality Plan, practices inclusive recruitment without any kind of gender discrimination. The conditions of employment are identical for women and men. In order to promote the diversity in its teams, EURECOM encourages male applications for administrative positions, traditionally occupied by women, and female applications for teaching/research positions, traditionally occupied by men.

EURECOM carries out positive actions within the framework of its CSR policy. A CSR referent steers EURECOM's policy in terms of CSR and energy transition (electric charging stations, solar panels, selective sorting, etc.).
