

# EURECOM ALUMNI MEETING

2015, June 26, Sophia Antipolis

## EURECOM Invites Alumni to the 2015 Alumni Conference and Reunion

Dear Alumni of the growing EURECOM Family !

It is our pleasure to invite you for the **2015 Alumni Conference, June 26**, hosted this year at **EURECOM Campus SophiaTech in Sophia Antipolis**.

The purpose of the Alumni Conference is to bring a large number of alumni together for a mixture of informative and fun activities. The keyword here is networking, EURECOM's major strength. After 23 years the EURECOM community now includes more than 2,000 alumni from its master and PhD programs.

Staying in touch is an essential part of the EURECOM experience, maybe even more than the formal educational.

In order to frame this well, the organizing committee is composing a very interesting program with talks by distinguished alumni and EURECOM's top faculty as well as a friendly social event.

As alumni you have a shared interest in digital society and innovation issues.

### Pre Programme :

This year we are experimenting with some new ideas including :

- **Free entrance** for EURECOM alumni to the 4th edition of the **international conference "Innovative City"** to be held at Acropolis Convention Centre on 24 and 25 June 2014. (Thanks to our partnership with the Principality of Monaco and the Metropole de Nice Côte d'Azur). This annual event is positioned as an international reference appointment for «Sustainable and Smart Cities».
- **An Alumni Conference on 26 June**, including poster session and panel discussion with experts. Industrial members will be part of this event. This might present a unique opportunity for alumni looking for new professional contacts. The companies participating are fully aware of the unique character and skillsets of our alumni and therefore we hope that such direct contact will prove to be useful .
- **A beach party with water sport activities, a gala dinner and dance.**

the Alumni Conference website will be on line very soon and you will find a detailed overview of this very diverse program and the registration form.

By this time and for organisation matters, we need to know your intention (define the most suitable place and the right price) , so please help us and fill in this

**Google Forms.**

Recently we has made considerable effort finding contact data for all of our "missing" alumni, to ensure we're reaching as many of you as possible. We therefore hope to see more of you during this day than ever before!
